

Design, Access and Heritage Statement

65 Tarrant Street, Arundel, BN18 9DJ

Proposal: Change of Use of Loft Space from Office Storage to Office Work Space and Installation of Roof Light

23rd July 2018

Design and Heritage

The only change that will be visible from the outside is the new roof light to the Tarrant Street elevation. This will not protrude by more than 100mm and result in a minimal impact on the area.

Access

The access to the building is not changed by the proposal. The access to the loft will be via stairs that are similar to those existing in the building.
