

## 7 Penfolds Place Arundel BN18 9SA

The trees in question is a mature Hornbeams in good health and provides good amenity value to the surrounding area. The proposed work would be to crown reduce the tree by 2.5 metres on the south side and crown lift the lower canopy to 5 metres over car parking area retaining the main scaffold limbs. In recent times we have had a large hornbeam fail less than 25 metres away for the tree in question so the residents would like to maintain the trees going forward to minimise the risk. All work will be completed in accordance of British Standards BS3998 / 2010
