Subject: RE: Request for further information AB/9/22/DOC

Dear Michael

I have spoken to Martyn this afternoon regarding the information required for this application.

Please can you provide details of the proposed paint and materials to be used for the windows: manufacturers name/details, colour of paint and a photo/screen shot clearly showing the proposed colour. You may also provide a link to the relevant website.

With regards to the window glazing/sections, please re submit the drawings from the original application.

The information required is a validation requirement, which is then posted on our website, and advertised as it relates to a Listed Building.

Kind Regards

Nicky

Dear Nicky,

These details were all submitted as a part of the original application, which I why I queried with Martyn White the need for Condition 5 in the first place. Detailed 1/10 scale drawings and specifications were all included in the original application. He assured me in our subsequent telephone conversation and by his email dated 2/10/20, that all that was needed was a one line description confirming the colour of the paint and the type of wood / material to be used. There are no manufacturers details are these windows will be bespoke handmade joinery items. I have copied Martyn into this email. Perhaps you could liaise with him, to help get this matter resolved.

Good Afternoon Michael

With reference to your email below, it is a validation requirement that sufficient information is submitted to allow the application to be determined.

You will therefore be required to provide details of the materials and finishes to be used for the proposed windows (including glazing details) as this information is posted on our website and it will also be advertised as it relates to a Listed Building. We also keep the details on our records.

Kind Regards

Nicky Moore

Dear Nicola,

All of these details were provided in the original application, which is why I queried the need for condition 5 with Martyn White. Please see email trail below. My subsequent telephone conversation with him confirmed that all that was needed was a simple one line sentence saying the windows are to be hardwood timber and painted white, which was then confirmed in this email.

Dear Michael,

Thank you for your email and our conversation earlier. I confirm the approach outlined in your email below is correct regarding the fact that the window replacement in a heritage style format of 4/6/4 glass have been approved and that you will need to supply details of the materials and colour of the windows .

Kind Regards

Martyn

Dear Martyn,

Further to our conversation this morning about condition 5, I would be grateful if you could confirm that the details submitted in the application for the window replacement in a heritage style format of 4/6/4 glass have been approved and in order to satisfy condition 5 we simply need to confirm that the windows are to be wooden and the colour they are to be painted.
