Subject: AL/103/18/PL

Dear Mr. Eastham, please find enclosed some photographs of our access track that I described to you in my objection to the application AL/103/18PL. As you will see it is awash with the weekends rain and the pot holes have now become deeper. This justifies my objection to an increased proposal for more vehicle access. Let alone the construction vehicles involved in building two houses.

With Regards
Christopher Blows.
