Dear Mrs Rawlins,

I would like to object to planning application AL/107/12.

1. Noise has been an issue over the past couple of years while they have been renovating the signal box. I would not like to have to go through the same situation with the Barn that's works noise and vocal as I can hear people talking quite often. I have quite often heard them in the past from their current location so I would not like them closer still.
2. Fire risk is something else that concerns me has we live in a wooden building and there is a possibility that if the Barn was to catch fire it could jump between trees and signal box which could ultimately jump to our house.
3. The proposal is not in keeping with the surroundings. It is being made to look like the Signal box at the detriment of the residents who live here.
4. Times of usage are a concern as I may have to hear the on goings everyday, which once again is unfair.

I feel that we are going to be subject to the above once again (and possibly moreover the coming months) when there is no need for this to go ahead. They already have a home and there are areas for meeting places within the community centre. So why should we be subjected to the unnecessary.

Mrs J Wilson and Mr M Wilson.
