Dear Madam,

Ref: - AL/107/16/RES

We wish to put forward our concerns over the proposed development of 79 houses on the land East of Hook Lane, Aldingborne.

We do know that there is running sand and also the field is liable to flooding which has caused problems to residents living in St. John's Close and Lamorna Gardens, in the past.

The extra concrete, tarmac and concrete piles that will be used in such a large development will through the ground water displacement add to the flooding problem, also we know that water always finds its own level. Flooding will effect the sewerage system which will eventually back up and flow into residents homes

(2).

causing a serious health and safety issue.

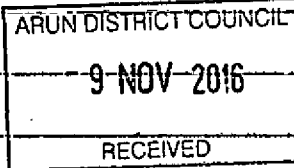

The scale of the development will also increase the amount of vehicles using the lane which has already become dangerous to walk along. Residents can no longer enjoy a walk in safety.

Yours sincerely,

Application No AL/107/16/RES

John June Standing

Planning Officer.

We would like to object to the above Application for 79 houses by Barratt Homes. We have lived in Cohen Close Hook Lane for over 40 years and the flooding has got steadily worse. More development will increase flooding and risk to properties in Hook Lane, St John Close, Lamorna Gardens and Cohen Close. Also a large number of cars and lorries use Hook Lane as a short cut from A29 to Oving Rd, Nyton Rd and on to A27.

Another consequence is that flooding can cause sewerage to build up and flood gardens and houses which is a risk to everybody's health. A lower density of houses and a more environmentally aware and green approach to the design would mitigate the increased flood risk to surrounding properties.

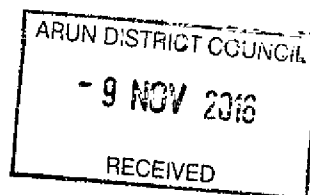

Yours Sincerely

THE HAME HOOK LANE ALDINGBOURNE CHICHESTER WEST SUSSEX PO20 3TE

Dear Ms Kernohan

Re: AL/107/16/RES

I write to express my concern that the above development will cause a significant flood risk to properties in Hook Lane, Lamorna Gardens and St John's Close. I also understand that flooding can cause sewage to back up and flood houses and gardens.

Yours sincerely

S. Williams
