Dear Sirs,

Planning Application AL/107/16/RES

I write to object to the above application, for a number of reasons.

- The proposed development is far too dense for what is a rural area. It is totally inappropriate.

- The area concerned is very prone to flooding and the

proposed urbanisation of the
area would make matters far
worse.

- Hook Lane - the access
road - is a narrow, winding
country lane - single track in
part - and with significant
traffic hazards at each end.
The lane is already over-
trafficked and the proposed
development would double the
number of properties that give
out to it.

I sincerely hope that permission
is refused.
Yours faithfully
