Dear Mr Davies,

Re: PA - AL/107/18/PL Nyton Stables, Aldingbourne.

This is a letter that we had hoped we would not have to write nor do we believe we should have to write, however here we are again.

Over past weeks we have contacted Rachel Alderson who has informed us that she has not yet received the new landscaping plans for the west boundary of the above-mentioned development.

We are now three months into the planting season with just 3 months left! We are sure you will agree that this must not be allowed to run into yet another year. Many of the trees planned are mature, and would have benefited from the wet season we have had, in-order to establish them.

Mr Cole is on the road with his show from April, so will not be there to over see the watering of these plants, which is what he indicated was his plan. If we have another dry spring we could be looking at a repeat of the original failed planting. Could you please mark this matter as urgent?

Could you also let us know how you are progressing with ensuring that the lighting conditions are implemented correctly in accordance with planning and as discussed in our previous correspondence please?

We look forward to your response.

Yours sincerely

Phill and Rosy Goddard
