Planning Application
AL/107/21/PL

11, Woodgate Road
Aldingbourne
Orchestrar
West Sussex
PO20 3SX

17/9/2021

We should like to register our objections to the above planning application. They are as follows

- ① We feel that Woodgate Road is too narrow to be used as an access road for 180 houses which would result in about 300 cars using it every day. This would cause pollution, noise and inconvenience to the residents of Woodgate Road who have to park outside their houses.
- ② Removal of the grass verges for a walkway and cycleway would have an environmental impact. As quite a few of the residents have off road parking this would make any walkway very uneven as some is dropped kerb and other parts are not.
- ③ As the Woodgate Centre is accessed via Oak Tree Lane why can't it stay like that?

(2)

(4) There is already too much traffic when we are trying to get onto the A29. With all the extra cars from the 180 houses it will be even worse.

These are our objections
