OWPC79740

As someone who relocated to West Sussex specifically to join BioDot, I've seen firsthand the potential this company has to contribute meaningfully to both the local and national economy. The proposed development of a purpose-built commercial space will not only create high-quality jobs in the area but also support the UK's life sciences sector by enabling the development of cutting-edge diagnostic technologies, including tools used in cancer detection and other critical healthcare applications. This investment represents a positive step for the community, aligning with broader national goals in innovation and public health, while reinforcing Arun's role in supporting industries that make a real difference to people's lives.

Your views as made above will be considered before the application is determined.
