Martyn and Ian,

I've received some amended drawings following applications AL/98/12/ and AL/109/12/L, which refused planning and lbc for a detached outbuilding/store. One of the main issues was the demolition of the wall. This proposal seeks to retain the wall, but still encroaches partly into the rear garden.

Please could I have your comments in due course.

Thanks,

Katherine

Dear Miss Rawlins

Re: Proposed replacement garage at Letterbox Cottage, Norton Lane

Following our telephone conversation I have attached scans of my sketches showing an amended proposal for the replacement garage at the above property.

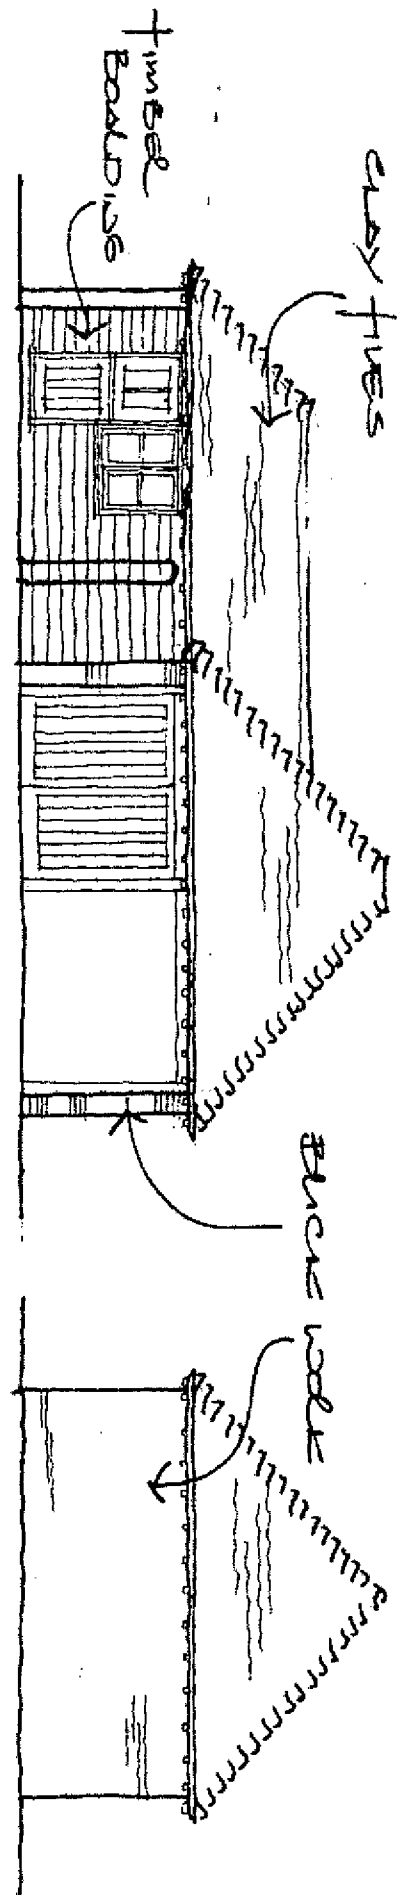

The revised proposal is for a replacement garage, similar in size to the existing flat roof garage, with a small work shop building attached. The proposed building will be constructed partly in brick work and partly in timber, with a tiled roof. The proposal retains the existing flint and brick garden wall.

Before we submit a revised planning and listed buildings application I would be glad of your comments.

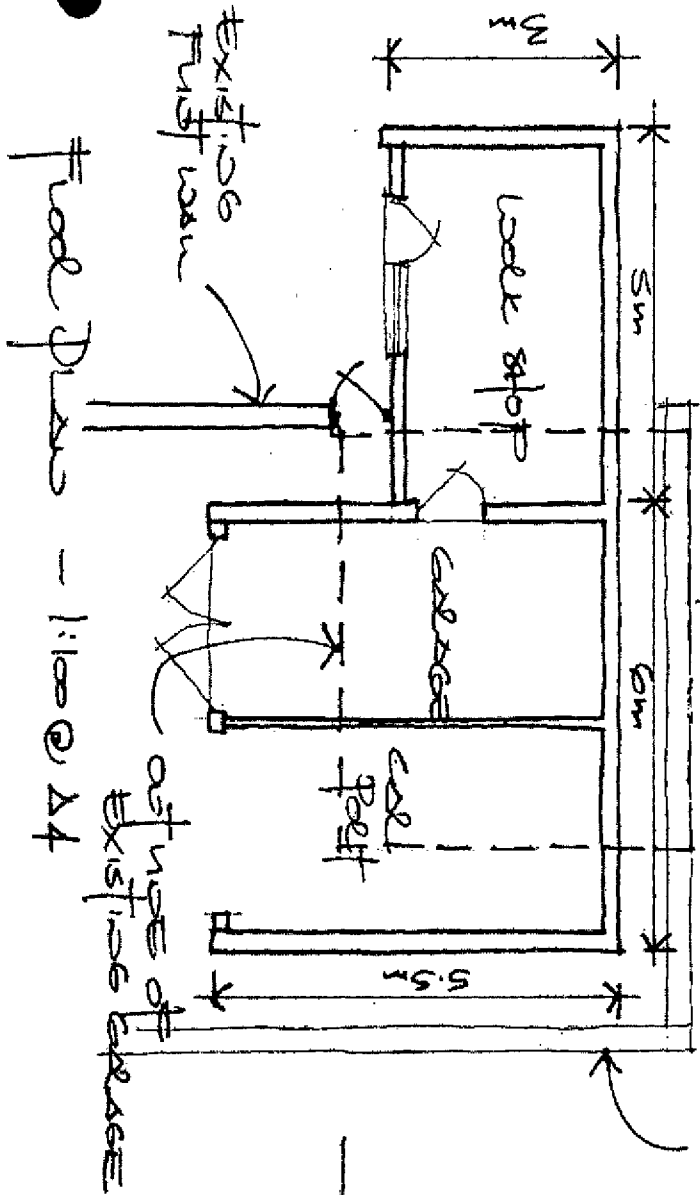

Kind regards

Garry Mount
