Subject: Orchard gardens woodgate proposed development.

We strongly object to this development, which is not in line with the local plan. Our roads just can not take anymore traffic, the A29 is at a standstill for half of the hour as it is we really cannot cope. The school is full, already parents have to transport their children to other schools thus causing more traffic. The doctors surgery is bursting at the seams, you have to wait two weeks to see a doctor. We really cannot cope with more housing. The reason we have a village plan is to protect the environment and the inhabitants if it's totally ignored what is the point of it,

Mrs Lynne Stephens
