To Whom it May Concern,

Well here we go again another letter about more houses in our village. If only the facilities had priority over housing e.g. Schools are full already, Doctors you cannot get an appointment so who deals with this situation! As for the lorry's up and down Orchard Gardens the road is far to narrow, nightmare for Mothers with children taking them to school maybe you feel that's a minor detail lets hope there's not a fatality.

Yours Sincerely
