Subject: Planning objection to AL/111/16/OUT

Dear Sir/Madam

My wife and I would like to object to the above planning application at the east of Orchard Gardens, Woodgate, Chichester.

The Aldingbourne Neighbourhood Plan that was voted for by 93% of the voters, agreed by Arun District Council on 09/11/2016, clearly states where the extra houses have had planning permission agreed.

This area of land also is part of the biodiversity corridors as described in the above plan and the Owner has already cleared this site therefore causing wildlife to lose their homes.

Access to this site will be virtually impossible as Orchard Gardens, when the parents are picking up and dropping off their children, park on this road as many as a dozen cars.

Another concern is that because of the railway crossing the vehicles can be backed up to the memorial at Eastergate. It can take ten to fifteen minutes to get from Orchard Gardens onto Westergate Street. If 57 houses are going to be built at Orchard Gardens and with the houses off of Hook Lane, Westergate Street will be gridlocked.

The school is another concern as it is full at the moment. If these extra houses are being built and young families are buying them then with the houses at Hook Lane over a hundred children will have no local school to go to.

Yours sincerely

Peter and Pearl Pitman
