

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

Proposed ONG creation, Individual urban Tree planting, habitat enhancement to Mixed Scrub – refer to BNG Assessment report for details.

All proposed but subject to confirmation should scheme be approved.

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).

As on-site provision falls short of 10% gain (5.11% gain on-site).

4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).

Only required if suitable off-site units are not available. To be confirmed as part of biodiversity gain condition of planning consent.
