Dear Mrs Cool

Thank you for your email and it's accurate content.

I am very glad that you have copied in Andrew Griffith he is the one whose position allows to affect government policy. He did once make a speech in parliament about how badly affected we are by it in this area. So hopefully he will put people before party now and help us to fight this onslaught of development.

In the meantime we must do our bit too and write to the press etc. I believe that it is only bad publicity that will get the government to act to protect local residents and the environment; future generations et al.

If we work together to put the pressure on we can succeed.

Thanks again

Paul Ayling

Dear Sirs

I would like to object to the above application to build 400 new homes east of Westergate for the following reasons-

1. The drainage around the Westergate, Eastergate, Barnham, Lidsey area cannot cope now let alone having to cope with extra homes being built.
2. The traffic situation on the roads in and around the aforementioned area is already bad and will obviously get worse with more homes being built. The roads are in terrible conditions due to flooding (due to all the new homes already being built). The district council cannot keep up with repairs at present-with extra housing there will obviously be more traffic which will only make the situation worse.
3. Residents in this area are having to wait a long time for an appointment at doctors surgeries due to the increase in numbers of people living in this area already and this situation will only get worse with extra homes being built.
4. Wildlife in this area has already suffered drastically and with extra building the different species around here could suffer more or even disappear.

Thank you for considering my objections.

Yours faithfully

Mrs Sandra Cool
