Dear Sir,

**Regarding the planning application AL/11/24/OUT**

We strongly object to this planning application to build 400 new homes on the following ground.

Westergate Street has enough heavy traffic to run along **A29**, especially during rush hours. It can not cope with 800 vehicles more ( 2 vehicles for each family).

This area can not cope with further concreting over the fields and landscape.

Water has nowhere to go causing flooding and roads close frequently. The local sewage system is unable to cope with the existing volume of waste which caused the system to collapse and multiple roads closed. Then, Southern Water increases our wastewater bills to pay for their repair.

Not to mention all the local services such as schools and doctor surgeries can not cope with more families in this area.

We never received medical attention from our nearest surgery as we required. We have had to change our medical surgery to further away medical surgery.

The Aldingbourne Rife is home to many species such as the endangered water vole, kingfishers, Heron, Foxes and Hedgehogs. Please do not drive them to extinction.

We do not require more houses in the Westergate area.

Kind regards,  
Christina & Alan Wells
