I object to this application!

I am absolutely outraged that more houses are even being considered given the recent road floods, traffic and sewage issues in Barnham. There are already too many new houses in this village, which is fast becoming one large housing estate. There are endless reasons not to allow this application to go through and shame on you if you do!

Local schools are already massively over subscribed (SPH had 600 applications for 190 places) and the doctors surgeries can't cope. The roads aren't sufficient for the amount of traffic and there is nowhere for rain water to go so there is constant flooding and the road closures. It's no coincidence that Fontwell Avenue has been a river since the new houses were built.

Even more houses will guarantee gridlocked traffic and even more flooding. It will be the nail in the coffin for the village and surrounding areas.

The area would be better used for community projects, protected green spaces and somewhere for future generations to enjoy, not used to make rich developers even richer.

Enough is enough now. These villages have taken more than their fair share of the new build quota.
