I object to this application.

I understand the need for housing as our population grows, however the Barnham, Westergate area does not have the infrastructure in place to cope with the amount of properties that have been built over the last few years.

We have had huge developments go up in Fontwell avenue, throughout Barnham and now the latest ones to go up by the shripney train crossing.

Every house built will likely have a minimum of 2 cars and the roads cannot cope with the amount of traffic that we have at the present time as it is!

The land being built on is mostly floodplains and now that this is tarmac the water is sitting on roads and causing havoc for the local residents.

I have lived around the area my entire life and am aware of the amount of woodland and greenfield being taken from our local wildlife and it is disgusting. Having walked the area over the years it is heartbreaking to see our countryside being ripped out and replaced with estates, full of poorly constructed houses some of which are still empty!

Please take in consideration the opinions of local residents on this matter.

Regards,

Daniel Redfern
