I would like to object to the planning application AL/11/24/OUT.

For 400 houses behind the Wilkes Head. The reasons being. We have far too many floods going on in this area with all the new builds going up. St Richard's hospital just cannot cope with any more people. Roads are at a standstill most days & the infrastructure in this area cannot cope with any more developments. Certainly the sewers are not coping now & adding more houses will make the problem worse than what it is now. We cannot dump more in the seas. The houses are just not selling well either. If this development goes ahead it will also affect the wild life as well. This is pure madness.
