7th April, 2018

Dear Sirs,

Re: AL/123/17

I wish to strongly object to the proposed application to demolish the existing bungalow and erect a 2 story house with a very modern theme with the above application reference. This proposed development is totally out of character to the surrounding properties and will stuck out 'like a sore thumb' in this very rural setting.

As far as I am aware there is no development of this kind in the whole of the Aldingbourne/Westergate, Eastergate, Barnham, Walberton, Fontwell or Yapton areas so why have the residents of Hook Lane, Aldingbourne, got to put up with this kind of monstrosity?

Hook Lane has been violated over the past year or so by planning applications being allowed in what is (soon to be was) a lovely country lane with a variety of properties for all people. At the moment we have the noise and disruption of 79 houses being erected about ¼ mile from the A29 with another 8 houses having been given permission to go ahead opposite the 79 houses development. This new application will be like having a knife screwed round and round in our bellies.

Please do not allow this monstrosity to go ahead.

Yours faithfully,

[REDACTED]

Mrs Wendy Corney
Resident of Hook Lane

Ps. I would normally email my objection through to you BUT I find your website impossible to negotiate and could not get the application reference to be acknowledged by your system at all – how ever I put it in.
