Dear Simon

I think the alteration from dormers to rooflights makes the massing slightly less to the roofscape, but rooflights are incongruous to the area/adjacent Building of Local Interest, so I would say there is little net benefit to the alteration. The other concerns remain.

Clare -- can you consider whether the changes along with the email I sent Wednesday resolve your objections in any way?

Kind Regards

Dear Simon

As mentioned earlier, please find attached substitute plans to remove the dormer windows to address comments from the Design Officer. I trust that this overcomes the objections.

Best regards

Susan
