Dear Brad,

Thank you for your email and revised plan found below.

Having looked at the various details alongside DMRB, my view is that the design now demonstrates the appropriate kerb-to-kerb widths. These will be checked again at detailed design stage (S278) should planning permission be granted for the proposal. All I would add at this stage is that I have not been able to discuss this with David Jukes as he is unavailable today and I do need to know he is happy from the Road Safety Audit viewpoint.

In good faith and based on *my* findings I will issue my highways response to Simon Davis today. However, WSCC reserve the right to withdraw it if David, upon looking at it, does not agree the RSA-side of things for the widths. If that situation arises, I have briefed my Team Manager Steven Shaw to act as point of contact as I am on annual leave from close-of-play today, returning to the office on 21st April.

I do hope that all highway matters are now be resolved but do please bear in mind the caveat above.

David (Jukes), when you've had the opportunity to look at the plan, please would you let Brad know your views soonest, copying-in all those above in the process – thank you.

Regards,

Tim

***EXTERNAL**

Hi Tim,

Please find updated drawings attached with the traffic islands widened to 1.8 metres with carriageway widening to the east to maintain the 3.15 metre through lane widths and 4.0 metre kerb to kerb widths. Due to the dimensions that are already shown on Sheet 2 on the main viewports we have added a small insert of the length and width.

All of the recent changes are very minor in nature and you will be aware that the ADC's Agenda for the planning committed on the 27th April is being finalised now and, therefore, we trust that you are now able to confirm that you have no objection to the proposals in highways terms given this is the final outstanding matter.

I will give you a call later this morning to confirm the situation.

Happy to discuss.

Kind Regards,
Brad

Brad Loxley
