Hi Darren,

Apologies, I discussed this with Claire yesterday having been through everything in detail. I believe that the best approach would be to discharge Condition 5 (again) through the submission an amended Arboricultural Method Statement. I believe this would be the most appropriate and simplest means of regularising this.

Let me know if you have any questions.

Many thanks,
David

Hi David,

Can I press for a final answer on this please. I really need to get this application submitted and know if it is necessary?

Thanks

Darren

Hi Darren,

I am still trying to figure out what you need to do. As previously, advised originally I thought that the re-discharge of condition 5 might be sufficient. The one issue I have is that some of the trees were not shown on the original details approved by the reserved matters application. I am seeking confirmation as to if we need to regularise the details approved under the reserved matters application. I am hoping that this is not the case but will let you know next week. If you haven't heard from me by Wednesday please give me a call to remind me and I will get a final response.

Many thanks,
David

Hi David,

Just wondering when we may receive confirmation in terms of varying the condition relating to the trees on site?

Many Thanks

Darren
