Hi Nicola,

Slightly amended floor plan as I noticed a discrepancy on one of the windows. Every window should now be correctly sized.

Please take the attached as the latest floor plans.

Thank you

Hi Nicky,

Thank you for the conversation earlier today and please find the amended plans attached.

In reference to the "The elevations appear to be labelled incorrectly." as discussed on the phone they are labelled correctly. The south facing elevation is the side with the porch on and the north side has the flat roof extensions on.

Thank you

Jaime

Good Afternoon Jaime

Thank you for the amended plans that I received on 10th January. I have checked the measurements and scales, and there are still a few discrepancies. These are;

- Proposed West elevation includes a window on the 2nd floor, but this does not appear to be included on the Proposed 2nd Floor plan.
- 2nd floor windows measure 1.40m and 1.30m, but on the Proposed North elevation they measure 1.7m and 1.1m.
- 1st floor windows measure 1.60m, 1.10m and 1.10m, but on the Proposed North Elevation measure 1.35m, 1.35m and 1.05m
- The elevations appear to be labelled incorrectly. Please check all aspects and confirm if correct or amend accordingly

- The previously submitted Proposed Ground Floor plans show 2 x dining room windows, 1 x boot room window and porch window, but these are not included on the plan received on 10th January.

As discussed earlier, you can remove all reference to scales etc, and instead clearly annotate the window/door measurements on the floor plans and elevations.

Kind Regards

Nicky
