Dear Sirs,

I receive planning applications within a mile of my house in Hook Lane.

This morning I received a new application (AL/13/25/DOC – Karenza, Hook Lane) but I am unable to make any comments on this application because that facility is just not available.

I believe this is a new way of getting into a piece of land at the rear of Karenza etc. and has probably superseded an original application to gain access to the site through St John's Close. I am only assuming this as there are no plans of the actual site included in the documents either.

I object against the application as it will mean there will be no wild area on the east of Hook Lane because you have already agreed to many applications which have taken all the fields away from between Hook Lane and Westergate Street. Please can you leave us alone. There are already nearly 100 extra houses built off Hook Lane and what was once a semi-country Lane has become another housing estate. The amount of wildlife has decreased tremendously and the whole of Hook Lane is bothered with excessive ground water which floods the Lane in various places. There has been no attempt to increase capacity at either the local schools or the doctor's surgery. Whilst I realise the government is demanding that Councils build more and more houses, I feel that Aldingbourne have done more than enough in 'accommodating' more houses and all of them have been opposed by the residents.

Please don't allow this application to be granted and, please, get your website up to date as far as Comments and plans are concerned.

Regards,

Wendy Corney (Mrs)
