**CAUTION:** This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Dear Simon

Further to my email on Friday, with amended and updated information in relation to the above application, please see further link below which includes the drainage and highways information. [Woodgate Ph1 Additional Info 180325](#)

Also attached is an updated plans and document schedule.

The links also includes an amended surfacing plan, to correct an error on the version previously circulated and also an EV charging plan, showing the locations of EV charging points.

For your assistance, we have also prepared responses to the feedback received, to assist in identifying the changes made and how they have responded to comments. For ease of identification, our comments are in blue.

Our engineering consultant has been in discussion with Mat Jackson at the LLFA regarding the drainage matters. They would like to be able to continue communication directly but need your agreement to do so. Attached is everything required for a reconsult.

The detailed planting plans and plans showing ecological enhancement are currently being updated, and these will be forwarded later in the week.

I trust that this is of assistance, but any queries then please do let me know. Please confirm receipt.

Kind regards,

Clare Whitehead BA(Hons) MA MRPI (She/Her)  
Principal Planning Consultant
