For the attention of Zac Denton

With reference to the above application I have pleasure in providing the additional information required.

I would like to request permission to reduce the crown of the two oak trees by up to three metres, where the trees are in contact with or overhanging the roof and wall of the property.

I would like to carry out thinning of the two oak trees, to a maximum of 30%, to allow more light into property and garden area.

I have attached some photos to help you see the trees and branches concerned, and the extent to which they are growing over the property/building.

I trust this helps, and please let me know if you need any additional information or photos.

Regards

Bryan Mundy
