

**WEST SUSSEX COUNTY COUNCIL
PLANNING SERVICES DIVISION: SECTION 106 CONSULTATION RESPONSE
(excluding Transport (known as TAD) contributions)**

DATE: 9th July 2018

FROM: Eloise Short, Monitoring and Records Team

TO: Tim Townsend, Planning Applications Team

DISTRICT COUNCIL: Arun

Application Number: AL/20/18

The Provision of Service Infrastructure Related to: Land at Bridge Cottage & The Old Cottage Lidsey Road Lidsey PO22 9PH

Planning Application details – Outline application with all matters reserved for the demolition of 2 No. dwellings & associated outbuildings & the erection of up to 27 No. dwellings, of which 30% will be affordable, with associated open space & access. This application is a Departure from the Development Plan.

Without prejudice to the informal representations of the County Council in respect of the above planning proposal, I am writing to advise you as to the likely requirements for contributions towards the provision of additional County Council service infrastructure, other than highways and public transport that would arise in relation to the proposed development.

The basis for my advice is contained in the adopted Supplementary Planning Guidance document "The Provision of Service Infrastructure Related to New Development in West Sussex – Part 1.

The planning obligation formulae below are understood to accord with the Secretary of State's policy tests outlined by the in the *National Planning Policy Framework, 2012*.

The advice is as follows:

1. School Infrastructure Contribution

1.1 The Director for Children and Young People's Services advises that it appears that at present primary/secondary/further secondary schools within the catchment area of the proposal currently would not have spare capacity and would not be able to accommodate the children generated by the assumed potential residential development from this proposal. Accordingly, contributions would need to be requested.

1.2 Early Years, Primary and Secondary Financial Contribution

The financial contribution sought by the county council would be based on: the provision of two 2FE primary schools, the provision of 110 nursery places and a new 10FE secondary school to serve Arun District, as set out in the Arun Infrastructure Delivery Plan (February 2018).

We will require £30,933 towards fixtures, fittings and equipment towards a new early years facility serving BEW, based on the provision of 27 dwellings.

We will require £194,870 towards fixtures, fittings and equipment for a new primary school serving BEW, based on the provision of 27 dwellings.

We will require £118,692 towards fixtures, fittings and equipment for a new secondary school serving Arun, based on the provision of 27 dwellings.

1.3 Further Secondary Financial Contribution

The financial contribution sought by the County Council would be based on: the estimated additional population that would be generated by the proposed development, reduced to reflect any affordable dwellings (by which we mean Social Rented dwellings, but NOT Shared Equity, Intermediate or Key Worker status dwellings) for occupation by persons already residing in the education catchment area; the County Council's adopted floorspace standard for education provision; and the estimated costs of providing additional education floorspace. As the housing mix is not known at this stage, I propose the insertion of a formula into any legal Agreement in order that the school infrastructure contribution may be calculated at a later date. The formula should read as follows:

The Owner and the Developer covenant with the County Council that upon Commencement of Development the Owner and/or the Developer shall pay to the County Council the School Infrastructure Contribution as calculated by the County Council in accordance with the following formula:-

DfE Figure x ACP = School Infrastructure Contribution where:

Note: x = multiplied by.

ACP (Additional Child Product) = The estimated additional number of school age children likely to be generated by the development calculated by reference to the total number of dwellings, less any allowance for affordable dwellings, as approved by a subsequent reserve matters planning application. The following criteria are used to generate a child product:

Dwelling Size		Occupancy	
		House	Flat
1 bed	=	1.5	1.3
2 bed	=	1.9	1.9
3 bed	=	2.5	2.4
4+ bed	=	3.0	2.8

Using the above occupancy rates to determine an overall population increase the following factors are applied. According to 2001 census data, there are 14 persons per 1000 population in each school year group for houses and 5 persons per 1000 population in each school year group for flats. There are 7 year groups for primary (years R to 6) and 5 for secondary (years 7 to 11). For Sixth Form, a factor of 0.54 is applied to the Child Product figure as this is the average percentage of year 11 school leavers who continue into Sixth Form colleges in West Sussex.

DfE Figure = Department for Education (DfE) school building costs per pupil place (for pupils aged 4 to 16) as adjusted for the West Sussex area applicable at the date when the School Infrastructure Contribution is paid (which currently for the financial year 2018/2019 are – Primary £17,920, Secondary £27,000, Further Secondary £29,283), updated as necessary by the Royal Institute of Chartered Surveyors Building Cost Information Service All-In Tender Price Index.

- 1.3 The contributions generated by this proposal shall be spent on additional facilities at St Phillip Howard Catholic High School Sixth Form.

2. Library Infrastructure Contribution

- 2.1 The County Librarian advises that the proposed development would be within the area served by a proposed Tier 7 library for BEW and that the library would not currently be able to adequately serve the additional needs that the development would generate.

However, a scheme is approved to provide additional floorspace or facilities at the library. In the circumstances, a financial contribution towards the approved scheme

would be required in respect of the extra demands for library services that would be generated by the proposed development.

2.2 Financial Contribution

The financial contribution sought by the County Council will be based on: the housing allocation at BEW providing a Tier 7 facility at a cost of £100,000. A pro-rata share of this cost will be divided between developments at BEW, based on dwelling numbers.

We will require £1,173 towards a new Tier 7 facility for BEW, based on the provision of 27 dwellings.

3. **Fire & Rescue Service Infrastructure**

3.1 Fire Stations

The County Fire Officer advises that a financial contribution from the proposed development towards the cost of fire and rescue infrastructure, principally fire stations and services serving the area within which the proposal stands, would be required. This is necessary due to proposed development in the Southern division and the resultant need to improve service provision across the area. The proposed development should proportionately contribute towards the cost of necessary infrastructure needed to support development.

3.2 Financial Contribution (excluding provision of fire hydrants)

The financial contribution sought by the County Council would be based on: the estimated additional population that would be generated by the proposed development, reduced to reflect any affordable dwellings (by which we mean Social Rented dwellings, but NOT Shared Equity, Intermediate or Key Worker status dwellings) for occupation by persons already residing in the fire service provision area; the County Council's adopted standards of fire service cover provision; and the estimated costs of providing additional fire stations. As the housing mix is not known at this stage, I propose the insertion of a formula into any legal Agreement in order that the fire service contribution may be calculated at a later date. The formula should read as follows:

The Owner and the Developer covenant with the County Council that upon Commencement of Development the Owner and/or the Developer shall pay to the County Council the Fire and Rescue Infrastructure Contribution as calculated by the County Council in accordance with the following formula:-

$Y \times (Z / M)$ = Fire and Rescue Infrastructure Contribution where:

Note: / = divided by, x = multiplied by.

Y = The estimated adjusted increase in population generated by the development using the following figures as a guideline:

Dwelling Size		Occupancy	
		House	Flat
1 bed	=	1.5	1.3
2 bed	=	1.9	1.9
3 bed	=	2.5	2.4
4+ bed	=	3.0	2.8

Z = the estimated costs of providing additional Fire and Rescue Infrastructure in the Southern Service Division of West Sussex at the time of payment (which, for information, for 2007/2008 was £5,530,000).

M = the projected population of the Fire and Rescue Service Southern Service Division of West Sussex in 2016 at the time of payment (which, for information, for the 2007/2008 financial year was 429,647).

- 3.3 Fire and Rescue Service Contribution to be used towards supply and installation of additional fire safety equipment to vulnerable persons homes in West Sussex Fire Rescue Services Southern Area serving Aldingbourne.

General points

Please ensure that the applicants and their agents are advised that any alteration to the housing mix, either size, nature or tenure, may generate a different population and require re-assessment of contributions. Such re-assessment should be sought as soon as the housing mix is known and not be left until signing of the section 106 Agreement is imminent.

It should be noted that the figures quoted in this letter are based on current information and will be adhered to for 3 months. Thereafter, if they are not consolidated in a signed S106 agreement they will be subject to revision as necessary to reflect the latest information as to cost and need.

Review of the contribution towards the provision of additional County Council services should be by reference to an appropriate index, preferably RICS BCIS All-In TPI. This figure is subject to annual review.

Appropriate occupancy rates using the latest available Census data will be used.

Should you require further general information or assistance in relation to the requirements for contributions towards the provision of County Council service infrastructure please contact, in the first instance, the Planning Applications Team officer, named above.

Where the developer intends to keep some of the estate roads private we will require provisions in any s106 agreement to ensure that they are properly built, never offered for adoption and that a certificate from a suitably qualified professional is provided confirming their construction standard.

Where land is to be transferred to the County Council as part of the development (e.g. a school site) that we will require the developer to provide CAD drawings of the site to aid design/layout and to ensure that there is no accidental encroachment by either the developer or ourselves.

Hi Michael

Please find attached the S106 consultation response for the above site. Apologies for the delay in getting this to you.

Kind regards
Eloise
