Subject: FW: Planning Consultation on: AL/20/21/PL

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Subject: RE: Planning Consultation on: AL/20/21/PL

Response to Planning Application

From: Arun District Council Greenspace

Date: 25/03/2021

Application ref: AL/20/21/PL

Description: Demolition of Wings House & erection of 71 No. replacement dwellings (70 net new dwellings), access arrangements, sustainable drainage measures, public open space, landscaping & all other associated works (resubmission following AL/46/20/PL). This application is a Departure from the Development Plan.

Location: Land At Wings Nursery Lidsey Road Woodgate PO20 3SU

Determining Authority: Arun DC

Summary recommendation: Recommend **no objection on landscape grounds** to the layout proposals, subject to the considerations and confirmations below.

Comments

Relevant landscape designations:

There are no physical, visual, historical or cultural links, protected landscapes, scheduled ancient monuments, listed buildings, conservation area or Historic Parks or Gardens associated with this site.

South Downs National Park to the north.

Response

This is a CIL liable development. The indicative layout has shown 71 dwellings (80 net new dwellings), within the proposals with an area of POS, located centrally to the development and buffer planting to perimeter, largely to accommodate existing trees. Consideration appears to have been given to positioning dwellings facing onto POS areas in line with good design principles, which is good to see.

Developments of 71 dwellings are required to provide both onsite facilities and offsite financial contributions as outlined in ADC SPD Open Space, Playing Pitches, Indoor and Built Sports Facilities January 2020.

A development of this size will require the provision of onsite POS minimum area of 4,998m² plus the provision of onsite, unequipped natural play LAP to include such features as landform, boulders or logs, seat and litter bin and onsite equipped LEAP 859m². Confirmation of the area of POS being proposed would be required.

There would appear to be discrepancy from the submitted drawings re layouts. The Proposed Site Plan 0004 Rev 01 shown LAP and LEAP clearly defined in two areas, General Arrangement Plan 2 of 2 2949-LA-02-Rev B and Landscape Masterplan 2949-SL-01 Rev B both show LAP natural features scattered across the POS area but no defined formal LEAP. This site would trigger the provision of LEAP and therefore this needs to be shown.

The indicative layout appears to show an area detailed as potential SuDS within the POS area. Should the need for SuDS be required with the development then these areas should not be included in the total area of usable POS calculations. Further detail would also be required regarding depths and indication of timeframe for water holding periods ie dry feature or water holding body. This would be particularly relevant because of the proximity in relation to play and dwelling boundaries.

Offsite financial contributions would also be sought via CIL towards playing pitches and ancillary/built facilities, swimming pools, arts and sports hall contributions.

Allotment provision/contribution would not be required from this development.

Consideration of existing trees and hedges within the site would be required and any removals agreed with Arun District Councils Tree Officer. Existing vegetation to the perimeter of these proposals may conflict with private gardens and come under pressure to be removed or pruned. It is good to see that the indicated green buffer shown to the boundaries of this development would go some way to accommodate existing trees and allow for their retention. The existing oak trees fronting the site and in close proximity to the proposed entrance would require inclusion within the scheme and protection during any construction works.

Pedestrian and cycle routes within the development should be a considered design features and their meaningful connection to beyond the site detailed.

Impact

The potential impact on the location would require that Landscaping be provided as mitigation towards screening and softening of the development.

Mitigation/requirements

An existing green boundary is evident in places, this may require further boundary planting treatment to enhance and improve. Further landscaping would be required within the development and POS area to increase biodiversity and habitat within this rural fringe site.

All greenspaces should be considered and valued and their connection for biodiversity and habitat explored. A robust and comprehensive planting scheme will need to be developed which includes a mix of evergreen and deciduous, native and ornamentals. Tree specification should be at a size which allows instant impact, but which will establish and mature as the site develops.

Landscape – Existing trees or vegetation that fall within the proposed or periphery of the development, may provide significant aesthetic impact to the location. Any trees along the boundaries, which adjoin neighbouring properties could provide potential valuable screening and should be protected and retained. Any considered tree works within the site should be agreed with Arun District Councils Tree Officer. Before construction, a tree protection scheme must be in place in accordance with BS 5837:2012 ‘Trees in relation to construction’

A clear indication of the proposed future management of the open space would need to be concluded. A clear directive of responsibility should be set out explaining how the site will be maintained ie responsibility and regime of all POS, play and public realm areas. Commuted sums would be required should the POS or play areas be transferred to the LPA for maintenance.

A full and detailed landscape scheme will be required to be submitted for approval, detailing species choice, position, densities and size at time of planting. Given the rural character of the area the extent and nature of landscaping will be important and precise details will be required. This should be plotted in plan and list form and in relation to the trees and vegetation to be retained so that a clear picture of the proposals can be seen. These details are required to ensure that appropriate screening is provided, maintaining and uncompromising the setting and ensuring that the proposals fit within the area of neighbouring properties, providing screening as required, increasing biodiversity and wildlife habitat.

Biodiversity Net Gain

In line with Policy ENV DM5 of the Arun District Local Plan information on Biodiversity Net Gain will need to be provided. Further information would be required demonstrating what will be included within the scheme and what level of net gain will be created from this.

Recommendation/Conclusion

I would recommend **no objection on landscape grounds** to the layout proposals, subject to the considerations and confirmations above.

Should you have any comments to make, these should be sent by replying to this email by 25th March 2021. You can also monitor the progress of this application through the Council web site:

www.arun.gov.uk/planning.

The application will be determined having regard to the development plan policies (if any are relevant) and other material considerations. The development plan can be accessed via the website <https://www.arun.gov.uk/development-plan> as can the the leaflet how to respond to planning applications <https://www.arun.gov.uk/planning-application-comments> which deals with material planning considerations.

Please be aware that any comments you may make will be available on our website so please do not insert personal details or signatures on your reply.

Should the application go to appeal the Planning Inspectorate will publish any comments made to the Council on their website: <https://www.planningportal.co.uk/info/200207/appeals> but they will protect personal details.

In the absence of a reply within the period stated, I shall assume that you have no observations to make

Yours sincerely

Mr S Davis
