to Kate, me

Dear Kate,

I have discussed this with my manager, but we cannot agree an EoT.

My understanding is that you will need to do 2 months of GW monitoring from 01/12/25 so until 01/02/26. We would then need to re-consult our Engineers.

This application must go to our planning committee if we are recommending approval but to hit the 18/02 Meeting would mean only giving our Engineers 12 working days to respond. In addition, my report would need to be written by 28 January so before the end date for the testing. This would not therefore be a viable meeting date.

The next available meeting would be 18 March, and this would be achievable but would require an EoT of almost 3 months from now which we cannot agree to.

Therefore, a withdrawal is preferred.

Kind Regards

Simon

Hi Simon

Apologies for the delay in getting back to you.

I understand that our drainage consultant has been in contact to discuss the matter. We can confirm that ground water monitoring has already commenced onsite.

Considering that this will not have to continue significantly beyond the current determination date please could we agree to an extension of time to allow us to complete this and submit the additional information required?

Kind regards

Kate Chapman
