Littlehampton,
West Sussex. BN17 5LF

Dear Mr. Davis,

RE: Application AL/23/17/DOC

Aldingbourne Farm Shop, Nyton Road, Aldingbourne, Chichester, PO20 3UL

Further to our previous correspondence regarding Condition 10 of AL/47/14/PL I have pleasure in enclosing the information requested in your letter of the 21st April, 2017 and I deal with the points as you raised them in that letter:

1. **Design of proposed column mounted lights** - As you will see, Plan 1 shows the elevations of the proposed column mounted lights. These are a 3m steel pole with floodlights attached to the top. The floodlights are downwards facing at an angle of 30° from horizontal. The proposed floodlight has a beam angle of 90° which is shown at Plan 2 giving a light field of approximately 12m.
2. **Lumens for the lights** - The proposed floodlights will be a maximum of 10,000 lumens which is equivalent to a 100 watt LED and the gate post lights will have a maximum lumen level of 750 which is the same as the wall lights.
3. **Hours of operation for all lights** - The yard lights will be used up until 10p.m. thereafter on a PIR with a 10 minute delay or until movement has ceased. The gate and wall lights will operating on a dusk til dawn basis so that residents and visitors can navigate around the site during the hours of darkness.

I trust this provides you with the information you require in regard to this Condition, however if you wish to discuss any aspect of the lighting further then please do not hesitate to contact me on 01722 334323.

Whilst writing, I can also confirm that the additional information in regard to the landscaping at Aldingbourne Farm will be provided shortly.

Yours sincerely,
For SYMONDS & SAMPSON LLP
