Dear FAO Sutcliffe,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015
Approval of details reserved by condition imposed under AL/20/21/PL relating to condition 14-
Construction and Environmental Management Plan.
Land At Wings Nursery Lidsey Road Woodgate PO20 3SU

Notification regarding the above application:

Condition Number 14

No development shall take place, including any works of demolition, until a Construction & Environmental Management Plan has been submitted to and approved in writing by the Local Planning Authority (who shall consult with WSCC Highways and the Councils Environmental Health Officers). Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. This shall require the applicant and contractors to minimise disturbance during demolition and construction and will include (but not be limited to) details of the following information for approval:

- the phased programme of construction works;
- the means of access and road routing for all construction traffic associated with the development;
- provision of wheel washing facilities (details of their operation & location) and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulations Orders);
- details of street sweeping;
- construction vehicle delivery times;
- details of a means of suppressing dust & dirt arising from the development;
- a scheme for recycling/disposing of waste resulting from demolition and construction works (i.e. no burning permitted);
- details of all proposed external lighting to be used during construction (including location, height, type & direction of light sources and intensity of illumination);
- details of areas for the loading, unloading, parking and turning of vehicles associated with the construction of the development;
- details of areas to be used for the storage of plant and materials associated with the development;

- details of the temporary construction site enclosure to be used throughout the course of construction (including access gates, decorative displays & facilities for public viewing, where appropriate);
- contact details for the site contractor, site foreman and CDM co-ordinator (including out-of-hours contact details);
- details of the arrangements for public engagement/consultation both prior to and continued liaison during the construction works;
- details of any temporary traffic management that may be required to facilitate the development including chapter 8 traffic signage;
- measures to minimise the noise (including vibration) generated by the construction process to include hours of work, proposed method of piling for foundations, the careful selection of plant and machinery and use of noise mitigation barrier(s).

Details of how measures will be put in place to address any environmental problems arising from any of the above shall be provided. A named person shall be appointed by the applicant to deal with complaints, shall be available on site and their availability made known to all relevant parties.

The Construction & Environmental Management Plan shall also include reference measures to minimise disturbance to bats and other wildlife during construction including the briefing of site operatives, monitoring by an ecologist and either securing or providing a means of escape for all deep pits/trenches/holes present on the site at night-time.

Reason: In the interests of the safety/amenity of nearby residents & occupiers of any nearby noise sensitive premises, the safety & general amenities of the area, biodiversity (particularly bats) and in the interests of highway safety in accordance with policies D DM1, ENV DM5, QE SP1, QE DM1, QE DM2, QE DM3, W DM1 and T SP1 of the Arun Local Plan and the NPPF. This is required to be a pre-commencement condition because it is necessary to have the construction site set-up agreed prior to access by construction staff.

Decision:

Arun District Council have decided to **APPROVE details reserved by this condition**

The revised Construction Environment Management Plan Rev D (April 22) has been agreed by WSCC Highways and although the Councils Environmental Health Officer has not indicated agreement, it is noted that it was revised to take account of their initial concerns.

The document is considered to provide an acceptable scheme and satisfies the requirements of the condition. The condition is therefore fully discharged insofar as the submission of details relates and on the understanding that the plan will be in force throughout the construction process.

Please do not hesitate to contact the above officer if you require any further assistance.

Yours sincerely

Neil Crowther
