The main site plan illustrates a complex drainage and groundwater management scheme. It features several buildings, including a large central structure labeled 'ENGINEERING BY OTHERS'. The plan shows a network of roads, including 'P/W fence 1.2m', 'P/W fence 1.4m', and 'P/W fence 1.75m'. A 'Cellular Sockaway 1' is detailed with dimensions and capacity. A 'Foul Pumping Station' is shown with its inlet level. The plan also includes a 'Permeable Paved Parking Court' and a 'Cellular Sockaway 2'. Groundwater levels are indicated by contour lines and labels like 'GW 10.00'. A 'KEY PLAN' in the top right corner shows the sheet layout. A 'KEY' defines symbols for groundwater sample locations, driveways, and levels. A north arrow is also present.
