27 April 2019

AL32/19/OUT
Wings, Lidsey Road

We wish to object to the above planning application.

Our main objection is that this proposal is outside the local development plan. If this application was to be approved, it would lead to further applications on the same basis because a precedent had been set.

As with other recent planning applications in our area, the construction of another 55 dwellings will add to the already very congested access onto the A29 at all times. This is exacerbated when the level crossing barriers are down. Reference to a train timetable will show there are 12 trains an hour, leading to delays of up to 34 minutes in the hour. It will be dangerous attempting to turn right out of the site access road. Traffic released from the level crossing and driving south is frequently speeding well in excess of the 30 mph limit and even if "Keep Clear" is painted on the road and obeyed, a driver's view to the left might well be obscured by large vehicles.

As far as I am aware, all the local schools are already full, even before the developments in Hook Lane & Fontwell Avenue are completed. Children living in this proposed new development will therefore have to travel to school by car, adding to environmental pollution.

We object strongly to this application. Please keep us informed as the planning process proceeds.

Yours sincerely

M P Stephens
