3 Description of Development

Outline application with some matters reserved for the erection of 55 No. dwellings, access arrangements, sustainable drainage measures, public open space, landscaping & all other associated works (resubmission following AL/115/17/OUT). This application is a Departure from the Development Plan.

4 In pursuance of their powers under this Act and related Orders and Regulations the Council **PERMIT** this development to be carried out in accordance with the application and plans and subject to compliance with the following conditions and Section 106 Agreement.

- 1 The development hereby permitted shall be begun either before the expiration of 5 years from the date of this permission, or before expiration of 2 years from the date of approval of the last of the reserved matters to be approved, whichever is the later.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 2 The permission hereby granted is an outline permission under s92 of the Town and Country Planning Act 1990 (as amended) and an application for the approval of the Local Planning Authority to the following matters must be made not later than the expiration of 3 years beginning with the date of this permission:-

- (a) Layout;
- (b) Scale;

- (c) Appearance;
- (d) Landscaping.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 3 The development hereby approved shall be carried out in accordance with the following approved plans insofar as they relate to the matters approved by this application:-

1551/05/B
2017/3711/001/Rev E
2017/3711/002/Rev E
2017/3711/004/Rev A

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policy D DM1 and TSP1 of the Arun Local Plan.

- 4 No part of the development, hereby permitted, shall be occupied until the accesses as generally shown on drawings 2017-3711-001; 002 and 003 (all revision 'E') and 004 (revision 'A') have been constructed to a final specification to be agreed with the local Highway Authority through a formal S38 and/or S278 process (including right hand turning lane on A29).

Reason: To ensure fit-for-purpose accesses constructed to appropriate design and safety standards in accordance with the NPPF and policy TSP1 of the Arun Local Plan.

- 5 No development shall commence unless and until details of the layout and specification of and construction programme for the roads, footpaths and casual parking areas/the foul and surface water drainage and means of disposal have been submitted to and approved by the Local Planning Authority. No house shall be occupied until it is provided with access constructed in accordance with such approved details to the established highway network.

Reason: To secure satisfactory standards of access and drainage for the proposed development in accordance with policy T SP1, T DM1, W DM3 of the Arun Local Plan.

- 6 No development shall commence until a Construction Management Plan has been submitted to and approved in writing by the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters,

- the phased programme of construction works;
- the means of access and road routing for all construction traffic associated with the development;
- provision of wheel washing facilities and details of their operation and location;
- details of street sweeping;
- details of a means of suppressing dust arising from the development;
- details of all proposed external lighting to be used during construction;
- details of areas for the loading, unloading, parking and turning of vehicles associated with the construction of the development;
- details of areas to be used for the storage of plant and materials associated with the development;
- details of the temporary construction site enclosure to be used throughout the course of construction (including access gates).
- contact details for the site contractor, site foreman and Construction Design Management co-ordinator (including out-of-hours contact details) under the Construction Design and Management Regulations 2015.

- details of any temporary traffic management that may be required to facilitate the development including Chapter traffic signs in accordance with Chapter 8 of the Traffic Signs and General Directions manual.
- details on how habitats and enhancements onsite will be managed during and post construction.

Details of how measures will be put in place to address any environmental problems arising from any of the above shall be provided. A named person shall be appointed by the applicant to deal with complaints, shall be available on site and their availability made known to all relevant parties.

Reason: To ensure safe and neighbourly construction in the interests of amenity and road safety and to accord with the NPPF and TSP1 of the Arun Local Plan.

- 7 Prior to the commencement of development a detailed level survey of the site including existing and resulting ground levels and the slab levels of the dwellings the subject of this approval, shall be submitted to and approved by the Local Planning Authority. The development shall proceed only in accordance with the details thus approved and there shall be no subsequent raising of levels without prior written approval of the Local Planning Authority.

Reason: In order to safeguard the amenities of the area and neighbouring residents in accordance with policy D DM1 of the Arun Local Plan.

- 8 No development, hereby approved, shall be occupied until provision for parking and turning of cars associated with the development has been provided in accordance with plans to be submitted to and approved by the Local Planning Authority after consultation with the County Highway Authority. Provision should thereafter be maintained solely for the purpose of the parking and turning of vehicles clear of the highway.

Reason:- To ensure that adequate provision for the parking and turning of vehicles is provided for the development to accord with the NPPF and policy TSP1 of the Arun Local Plan.

- 9 No development shall be occupied until any disused crossovers and/or accesses no longer required as part of the development, have been permanently removed and reinstated in accordance with plans to be submitted to and approved by the Local Planning Authority for consultation with the County Highway Authority.

Reason: To ensure that any access points not required to serve the development are permanently removed to avoid risk of inappropriate re-opening in the future and also in the interests of road safety and to accord with the NPPF and policy TSP1 of the Arun Local Plan.

- 10 The development, hereby approved, shall not be occupied until provision has been made within the site in accordance with details to be submitted to and approved by the Local Planning Authority after consultation with the County Highway Authority to prevent surface water draining onto the public highway.

Reason - In the interests of road safety and to accord with the NPPF and policy TSP1 of the Arun Local Plan.

- 11 Immediately following implementation of the approved surface water drainage system and prior to occupation of any part of the development, the developer/applicant shall provide the local planning authority with as-built drawings of the implemented scheme together with a completion report prepared by an independent engineer that confirms that the scheme was built in accordance with the approved drawing/s and is fit for purpose. The scheme shall thereafter be maintained in perpetuity.

Reason : To ensure that the proposed development is satisfactorily drained in accordance with policies W SP1, W DM1, W DM2 and W DM3 of the Arun Local Plan.

- 12 Development shall not commence, other than works of site survey and investigation, until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority. The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, and the recommendations of the SuDS Manual produced by CIRIA. Winter groundwater monitoring to establish highest annual ground water levels and winter Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage. No building / No part of the extended building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W SP1, W DM1, W DM2 and W DM3 of the Arun Local Plan. This is required to be a pre-commencement condition because it is necessary to implement the surface water drainage system prior to commencing any building works.

- 13 The development shall not proceed until details have been submitted to and approved in writing by the Local Planning Authority for any proposals: to discharge flows to watercourses; or for the culverting, diversion, infilling or obstruction of any watercourse on or adjacent to the site. Any discharge to a watercourse must be at a rate no greater than the pre-development run-off values. No construction is permitted, which will restrict current and future land owners from undertaking their riparian maintenance responsibilities in respect to any watercourse or culvert on or adjacent to the site.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W DM1, W DM2 and W DM3 of the Arun Local Plan. And to ensure that the duties and responsibilities, as required under the Land Drainage Act 1991, and amended by the Flood and Water Management Act 2010, can be fulfilled without additional impediment following the development completion. It is considered necessary for this to be a pre-commencement condition to protect existing watercourses prior to the construction commencing.

- 14 Development shall not commence until full details of the maintenance and management of the surface water drainage system is set out in a site-specific maintenance manual and submitted to, and approved in writing, by the Local Planning Authority. The manual is to include details of financial management and arrangements for the replacement of major components at the end of the manufacturer's recommended design life. Upon completed construction of the surface water drainage system, the owner or management company shall strictly adhere to and implement the recommendations contained within the manual.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W DM1, W DM2 and W DM3 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition to ensure that the future maintenance and funding arrangements for the surface water disposal scheme are agreed before construction commences.

- 15 Before the development hereby permitted is commenced, details of a proposed foul drainage system shall be submitted to and approved in writing by the Local Planning Authority (including details of its siting, design and subsequent management/maintenance, if appropriate) and no dwelling shall be occupied until works for the disposal of sewage have been fully implemented in accordance with the approved details.

Reason: To ensure adequate infrastructure is provided to enable the scheme to be satisfactorily drained in accordance with Policies D DM1, W DM1 and W SP1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition as the foul drainage system goes to the heart of the planning permission.

- 16 No development in any phase shall be carried out unless and until a schedule of materials and finishes to be used for that phase for external walls and roofs of the proposed buildings has been submitted to and approved by the Local Planning Authority. No development in any phase shall be carried out unless and until a 'statement of detail' for that phase has been submitted to and approved setting out details of proposed windows and doors, details of the depth of recess/reveal from the brickwork, sills and lintels, brick bonding, brick detailing, eaves detailing and rainwater goods. The materials and 'statement of details' so approved shall be used in the construction of the buildings.

Reason: To enable the Local Planning Authority to control the development in details in the interests of amenity by endeavouring to achieve buildings of visual quality in accordance with Policy D DM1 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition because the use of satisfactory external materials goes to the heart of the planning permission.

- 17 Prior to the commencement of the development details of the following biodiversity enhancements shall be submitted to and approved in writing by the Local Planning Authority. The details so approved shall be in place prior to the occupation of the development and retained in perpetuity.

- Any trees removed should be replace at a ratio of 2:1
- Hedgerow retention
- Wildlife pond
- Wildflower meadow planting used
- Filling any gaps in tree lines or hedgerows with native species
- Bat tiles/bricks and bird boxes installed on the site
- Grassland areas managed to benefit reptiles.
- Log piles onsite
- Gaps are included at the bottom of the fences to allow movement of small mammals across the site
- Retention and protection of the scrub, hedgerow and tree habitat on the south and west boundaries of the site.

Reason: To promote biodiversity in accordance with the NPPF and policy ENV SP1 of the Arun Local Plan.

- 18 During the construction phase no machinery/vehicles or plant shall be operated on the site, no process shall be carried out and no deliveries taken at or despatched except between the hours of:

7.00 a.m. and 6.00 p.m. on Mondays to Fridays inclusive

8.00 a.m. and 1.00 p.m. on Saturday

Not at any time on Sundays or Public Holidays

Reason: In the interests of amenity in accordance with Policies D DM1 and QE DM1 of the Arun Local Plan.

- 19 The mitigation measures detailed in the Reptile Survey Report of October 2017 and Bat Emergence Reports of October 2017 shall be carried out in full.

Reason: To promote biodiversity in accordance with the NPPF and policy ENV SP1 of the Arun Local Plan.

- 20 No external lighting shall be installed on site (including street lighting) until plans showing the type of light appliance, the height and position of fitting, illumination levels and light spillage have been submitted to and approved in writing by the Local Planning Authority. The scheme should seek to

conform with the recommendations within BS5489:1-2013 but also minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding. The lighting approved shall be installed and shall be maintained in accordance with the approved details.

Reason: In the interests of the amenities of the area, the site biodiversity (particularly in respect of bats), the interests of minimising crime and to minimise unnecessary light spillage outside the development site in accordance with policies QE SP1, QE DM2 & ENV DM5 of the Arun Local Plan.

- 21 Prior to the occupation of the dwellings, a scheme for the provision of facilities to enable the charging of electric vehicles to serve the approved dwellings shall be submitted to the local planning authority for approval and thereafter implemented in accordance with the approved details and the charge points shall thereafter be permanently retained and maintained in good working condition.

Reason: New petrol and diesel cars/vans will not be sold beyond 2040, and to mitigate against any potential adverse impact of the development on local air quality, in accordance with policy QE DM3 (c) of the Arun Local Plan, the Arun District Council Electric Vehicle Infrastructure Study (November 2017) and the National Planning Policy Framework.

- 22 Prior to the occupation of any part of the development, a strategy for the provision of the highest available headline speed of broadband provision to future occupants of the site shall be submitted to and approved in writing by the Local Planning Authority. The strategy shall take into account the timetable for the delivery of 'superfast broadband' (defined as having a headline access speed of 24Mb or more) in the vicinity of the site (to the extent that such information is available). The strategy shall seek to ensure that upon occupation of a dwelling, the provision of the highest available headline speed of broadband service to that dwelling from a site-wide network is in place and provided as part of the initial highway works and in the construction of frontage thresholds to dwellings that abut the highway. Unless evidence is put forward and agreed in writing by the Local Planning Authority that technological advances for the provision of a broadband service for the majority of potential customers will no longer necessitate below ground infrastructure, the development of the site will continue in accordance with the approved strategy.

Reason: To safeguard the amenities of future residents in accordance with Arun Local Plan policy TEL SP1

- 23 The landscape details referred to in Condition 1 shall include details of all existing trees and hedgerows on the land indicating which are to be retained and which removed. Development shall be carried out in accordance with the approved details. No hedge or tree shall be felled, uprooted or otherwise removed before, during or after the construction period except where removal is indicated on a plan approved by the local planning authority.

Reason: In the interest of amenity and the quality of the environment of the development in accordance with policies D DM1 and ENV DM4 of the Arun Local Plan.

- 24 At least 10% of the energy supply of the development shall be secured from decentralised and renewable or low carbon energy sources (as described in the glossary at Annex 2 of the National Planning Policy Framework). Details and a timetable of how this is to be achieved for each phase or sub phase of development, including details of physical works on site, shall be submitted to and approved in writing by the Local Planning Authority before any development in that phase or sub phase begins. The development shall be implemented in accordance with the approved details and timetable and retained as operational thereafter, unless otherwise agreed in writing by the Local Planning Authority.

Reason: In order to secure on site renewable energy in accordance with national planning policy, in accordance with policy ECC SP2 of the Arun Local Plan.

- 25 In the event that contamination is found at any time during the carrying out the approved development, it must be reported in writing immediately to the Local Planning Authority. All works must stop immediately and an investigation and risk assessment must be undertaken in accordance with the requirements of the local authority contaminated land officer. Where remediation is necessary, remediation scheme must be prepared in accordance with the local authority contaminated land officer guidance and which is subject to approval in writing of the Local Planning Authority.

Reason: To ensure that the development complies with approved details in the interests of protection of the environment and prevention of harm to human health in accordance with policy QE DM4 of the Arun Local Plan.

- 26 The development shall be undertaken in accordance with the Evaluation and Recommendations as specified in the Habitat and Suitability Index and eDNA report submitted by The Ecology Consultancy dated 12th June 2019.

Reason: In the interests of the ecology of the area and in accordance with ENV SP1 and ENV DM5 of the Arun Local Plan.

- 28 INFORMATIVE: As part of the approval of the reserved matters application, the applicant shall include details of security measures to the development layout and to buildings and boundary treatments in accordance with the consultation advice of Sussex Police available on the Councils website. The details to be submitted shall include siting, design and appearance of any measures as well as associated technical details.

INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

INFORMATIVE: S59 Agreement - If deemed necessary, the applicant should contact West Sussex County Council Legal Services to obtain necessary information to enter into the Section 59 Agreement under the Highways Act 1980. This Agreement is would be required in the event that extraordinary traffic required to build the development is generated during the construction phase/s in order to provide a means of making good the public highway following the cessation of construction traffic and building work on the site. Full details of the process can be obtained from the Local Highways Manager WSCC.

INFORMATIVE: Infiltration rates for soakage structures are to be based on percolation tests undertaken in the winter period and at the location and depth of the proposed structures. The percolation tests must be carried out in accordance with BRE365, CIRIA R156 or a similar approved method and cater for the 1 in 10 year storm between the invert of the entry pipe to the soakaway, and the base of the structure. It must also have provision to ensure that there is capacity in the system to contain below ground level the 1 in 100 year event plus 40% on stored volumes, as an allowance for climate change. Adequate freeboard must be provided between the base of the soakaway structure and the highest recorded annual groundwater level identified in that location. Any SuDS or soakaway design must include adequate groundwater monitoring data to determine the highest winter groundwater table in support of the design. The applicant is advised to discuss the extent of groundwater monitoring with the Council's Engineers.

Supplementary guidance notes regarding surface water drainage are located here

<https://www.arun.gov.uk/surfacewater> on Arun District Councils website. A surface water drainage checklist is available here <https://www.arun.gov.uk/drainagechecklist> on Arun District Councils website, this should be

submitted with a Discharge of Conditions Application.

INFORMATIVE: Under Section 23 of the Land Drainage Act 1991 Land Drainage Consent must be sought from the Lead Local Flood Authority (West Sussex County Council), or its agent (Arun District Council land.drainage@arun.gov.uk), prior to starting any works (temporary or permanent) that affect the flow of water in an ordinary watercourse. Such works may include culverting, channel diversion, discharge of flows, connections, headwalls and the installation of trash screens.

The development layout must take account of any existing watercourses (open or culverted) to ensure that future access for maintenance is not restricted. No development is permitted within 3m of the bank of an ordinary watercourse, or 3m of a culverted ordinary watercourse.

INFORMATIVE: If during construction works, it becomes apparent that implementation cannot be carried in accordance with previously agreed details any resubmission of the drainage design must be accompanied by an updated copy of the management manual.

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.

INFORMATIVE: This application has been approved subject to a s106 legal agreement requiring infrastructure contributions.

INFORMATIVE: Current Ordnance Survey mapping shows ordinary watercourses on or directly adjacent to the site. Local or field boundary ditches, not shown on Ordnance Survey mapping, may exist around the site. If present these should be maintained and highlighted on future plans. Works affecting the flow of an ordinary watercourse will require ordinary watercourse consent and an appropriate development-free buffer zone should be incorporated into the design of the development to aid access/maintenance.

Neil Crowther
Group Head of Planning

Case Officer: Mr D J Vick

Decision Issued: **3rd October 2019**

Arun District Council
The Arun Civic Centre
Maltravers Road
Littlehampton
West Sussex BN17 5LF

IT IS IMPORTANT THAT YOU READ THE NOTES ATTACHED TO THIS DOCUMENT

APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against this planning application decision, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against this planning application decision, then you must do so within 28 days of the date of service of the enforcement notice, or within 12 weeks of the date of this notice, whichever period expires earlier.

Otherwise, if you want to appeal against this decision then you must do so within 6 months of the date of this notice.

Appeals must be using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <http://acp.planninginspectorate.gov.uk>

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town & Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the public highway (including the placing of skips on highway land).
