Hi Nicola,

Thank you for your additional letter.

The amended location plan sent earlier this morning (attached) is extended over the entire existing pavement and covers all land for the proposed development, including the visibility splays indicated in the Transport Statement and proposed site plan.

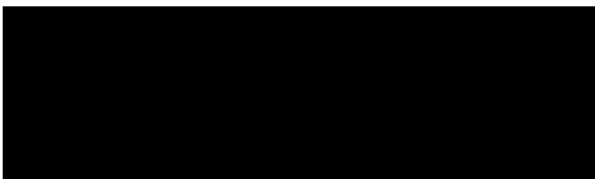

The 2 new proposed accesses / visibility splays are located within the site and up to the existing road, as per the attached amended location plan emailed this morning.

I would be grateful if you could confirm exactly what you require amending?

Many thanks,

Natalie
