Subject: RE: Planning Consultation on: AL/3/19/PL

App No: AL/3/19/PL

Address: Nyton Nursery Nyton Road Westergate PO20 3UQ

Proposal: Residential development of 70 No. dwellings (net increase of 25 over current consent AL/102/17/RES) including 30% affordable housing (8 units) with associated access, public open space & landscaping.

Bats

Following submission of the Updated Bat Survey (August 2017), we are happy that the mitigation proposed would be suitable. A condition should be used to ensure this takes place. The applicants should be aware that a Natural England Protected Species License will be required for the works, and this will need to be obtained prior to any works taking place

The lighting scheme for the site will need to take into consideration the presence of bats in the local area and the scheme should minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding.

Dormice

Following submission of the Dormouse Mitigation Strategy (Sept 2017), we are happy that the mitigation proposed would be suitable. A condition should be used to ensure this takes place. The applicants should be aware that a Natural England Protected Species License will be required for the works, and this will need to be obtained prior to any works taking place

Phase One Habitat Survey

Please can the original phase one habitat survey which was submitted as part of the previous application AL/102/17/RES be uploaded for this application so we are able to assess the other protected species that may potentially be onsite. The document is unavailable online for the previous application.

Nesting Birds

Any works to the trees or vegetation clearance on the site should only be undertaken outside of the bird breeding season which takes place between 1st March – 1st October. If works are required within this time an ecologist will need to check the site before any works take place (with 24 hours of any work).

Enhancements

Once the original phase one habitat survey has been submitted we will be able to recommend suitable enhancements for the site.

Kind Regards

Liz
