

DESCRIPTION OF LANDSCAPE ZONES

- A: Sensory garden:**
Existing Pool to be broken out and area filled to create new Sensory garden, with sheltered seating areas, raised beds and pond allow patients to garden and be stimulated by interaction with nature.
- B. Wildlife area:** An area with long grass and wild flowers, planted with species that support wildlife, and need less maintenance. Includes habitat features

C. New courtyard: overlooked by the day-room of the dementia unit and needs to accommodate an ambulance as well as a covered walkway. Includes raised horticultural therapy bed and seating areas, some lawn and ornamental trees. The existing water storage basin is to be converted to a water feature.

D. Herb garden: east and south facing sitting area with existing 'character' paving of portlands stone & stable paviours, to be retained and repaired Raised planter for herbs and existing gravel and shrubbery retained. Existing channel drain to be replaced and reconnected as required

- E. Maintenance access:** access to external areas overlooked by the bedrooms in the dementia unit
- F. Internal courtyard** overlooked by Day room with raised water feature within planting bed .
- G. Internal courtyard** : provides private garden space for two bedrooms
