Comment from Greenspace

Further to submission of planting plans DLA.1859-X-X-X-X-DR-L-01 P02 Illustrative Masterplan and further detail given within Planting Plans (Sheets 1-4) plan dwg 1859 XX DLA XX XX DR L 02/03/04/05 Rev P02. Full detailed landscape details have been submitted, now detailing species choice, position, densities and size at time of planting. These details now provide the information that was outstanding and have provided a scheme with appropriate screening, native and ornamental planting, fitting to location, aiding biodiversity and ensuring that the proposals fit within the area of neighbouring development. We note also the submission of the Detailed Planting Scheme and Management Plan November 2018 document which is also sufficiently detailed.

I would therefore recommend that I would now have no landscape objection to the details submitted to discharge the landscape condition (31) under this application AL/44/18/RES imposed under AL/58/15/OUT.
