Subject: AL/47/20/HH

Good evening,

Please find attached the documents requested in your email of the 23rd of June 2020.

In relation to the points raised:

1. Concise description of work: "Removal of existing garden fence and reinstatement of same on the western boundary of the property".

2. Location plan attached, outlined in red.
3. Plan of existing fence line attached.
4. Plan of proposed fence line attached.
5. Elevation drawing of western boundary of the property attached (as per requested scale).
6. CIL additional information form attached.

In addition to the points I would also like to add a description of the fencing to be used on the proposed boundary.

The current fencing is treated oak or softwood featheredge board with arris rail and wood posts. This will be the same material used in the proposed fence (subject of this application).

Kind regards

Stuart Tait-Bower
