Dear Sir / Madam

Its good to hear the trees
in Westergate Mews are being
trimmed, I hope this includes the
large tree's at the bottom of
my garden, it is so dark in
my house and garden is so damp.

Would it be possible to take off
as much as possible the large
branches that overhang my garden.
I get a lot of old branches from
them when the wind blows.
and it is very frightening with
the very windy weather we
seem to be having.
I know the trees have a

preservation order but a good
trim would be great.

Thank you yours sincerely
