Hi Simon

Thank for the email and I have also been through the comments on the website. Attached is revised drawings and information to address the issues as follows.

- 1) Condition 13 – Revised levels drawing now shows all existing levels in red.
- 2) Condition 6 – I have added a method statement for the hedgerows attached. The enhancements are included on the landscape plan.
- 3) Condition 15 and 16 – I have revised the landscape plan to include planting numbers etc. I have also amended the boundaries to the ditch as per the condition about 3m easement and access. This is also reflected in the surface water drainage designs which show the access and maintenance of the ditch. Also attached the survey of the existing ditch.

I would be grateful if these can be included as amendments. If you can try and get consultees comments as my client is desperate to get these conditions discharged to resume on site. I cannot see any other issues with the conditions so far so if you can confirm all is ok. If you can chase the drainage as we need to address any issues asap.

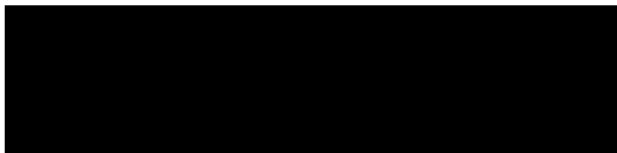

Regards

Philip Dudley
