Notification regarding the above application:

Condition Number 18

None of the houses shall be first occupied unless and until the applicant has submitted a scheme for approval by the Local Planning Authority to demonstrate that the development will achieve energy efficiency measures that reflect the current standards applicable at the time of submission and includes the use of renewable energy supply systems. The approved scheme shall thereafter be implemented prior to occupation of the dwellings and any approved renewable energy supply systems shall be permanently retained & maintained in good working order thereafter.

Reason: In order to secure a reduction in the use of energy at the site in accordance with national planning policy and policy ECC SP2 of the Arun Local Plan.

Decision:

Arun District Council have decided to **REFUSE details reserved by condition for the following reasons:**

The condition requires that a scheme be submitted to demonstrate that the development will achieve energy efficiency measures that reflect the current standards applicable at the time of submission and includes the use of renewable energy supply systems.

The submission simply provides details of air source heat pumps with no accompanying explanation as to how this meets the requirements of the condition. As such, the submission is unacceptable and a revised application will need to be made.

Please do not hesitate to contact the above officer if you require any further assistance.

Yours sincerely
