Dear Philip and Chris

Thank you both for your recent emails in connection with the recently submitted Arboricultural Report from EcoUrban Ltd.

I must refer you back to my email of 7th June 2020.

It is clear from the EcoUrban report that work to install the protective fencing was ongoing and incomplete. Condition 4 is clear – ***all protective fencing and ground protection measures will be inspected to verify they are 'Fit for Purpose' as required under British Standard 5837:2012 and have been erected and positioned exactly as shown on the "Tree Retention and Protection Plan", dwg.no. LLD1680-ARB-DWG-002, Rev 08.*** Prior to commencement.

I offered a relaxation of the requirement for default specification fencing (BS5837:2012, figure 2) but only along the S boundary, not the N or E boundaries.

I have not received an answer to item 2.

Recommendation

You will need to satisfactorily address all the outcomes stated in my email of 7th June, before I can support an approval of this application. To include once again - clear photographic evidence of the necessary refinements and brief written report confirming the same, from the project arboriculturist.

Kind regards,

Mark Warwick

Dear Mark

Attached is our tree consultant's report following his site visit and your comments in reference to the pre commencement conditions. I am sending this to you direct as this is extremely important that we can agree a way forward in order to discharge the condition. Our tree consultant has addressed all your issues. If the attached is acceptable then I don't see why the condition cannot be discharged. I would be grateful for your urgent attention on this.

Regards

Philip Dudley
