Subject: Objection to Application AL/50/18/PL- Change of use without original Compliance Condition.

Dear Mr Davis

I am a local resident- Mr Anthony Marriner of Fairways . The land in question is two doors down from me.

I have only just seen the recent application by Mr Duggan to occupy the first two house units without complying to the Condition that the access road is completed first.

What is the point of stipulating Conditions if Applicants can flout them to suit their own wishes.

In the last year very little building work has progressed appart from foundations and a "hard standing road/ parkingf area" constructed from building demolition rubble not specified road make up.

At the end of last week there were 10 vehicles on the site, no construction going on bhy the couple that now occupy TWO CARAVAN HOMES UNITS.

Are Building Control in control or not??

Having had a homes developement construction background in my career I cannot believe the way this site is being cobbled together.

I could not access the planning application to object to it in-line.

Yours sincerely

Anthony Marriner
