Please see Action Sheet

Mark – FYI. In case you look at this consultation before the new plans have been added to the system.

Kind Regards

Dear Simon,

Further to your email below I attach further documents in terms of tree retention and protection at Hook Lane as requested.

Should you require anything further please contact me.

Kind regards,
Natalie

Dear Natalie,

276 Aldwick Road is with the Tree Officer to comment. If he withdraws his objection, then it can go to our 7th August Committee. Mark is working in our office today so I will let him know that you have enquired.

As already stated, it is my intention to work on the Chandos report this week so that it is ready to go once I receive word that the legal agreement is complete.

Separately, I have just received the application for Springfield, Hook Lane (Kerry as agent). I see that there are trees on/off site and that a tree schedule and tree constraints plan has been provided. However, to save time later, you may wish to commission a tree retention/removal plan and a tree protection plan now as I will need to consult Mark on this application and I am sure that he will require further documentation in order to properly assess the impacts.

Kind Regards
