Dear Natalie,

We are minded to support the application in principle. However, upon reviewing the application, I see that our Tree Officer is yet to respond. I have spoken to him today and he will provide his comments next week.

I also note that the requested drainage strategy has not yet been provided. Given the history of the site to the north (for which I recall surface water drainage matters were of paramount concern to members of the DC Committee), I consider that this strategy must be submitted to us before we finalise our recommendation.

Kind Regards

Hi Simon,

Further to our emails on the application at Hook Lane are you able to advise me on timescales for determination of the application and your likely recommendation please?

Kind regards,
Natalie
