

Please see Action Sheet.

Kind Regards

Dear Simon,

Further to the comments received in terms of trees and drainage issues at Hook Lane we have worked with the architect and consultants to develop a solution that responds to comments raised. Please see attached amended drawing nos. SK02 rev 02, SK03 rev 02, SK04 rev 04, SK05 rev 02, SK07 rev 02, SK08 rev 02, SK09 rev 02, SK10 rev 02, SK11 rev 02, SK12 rev 02, SK18 rev 02, SK20 rev 01 and SK21 rev 01 along with Tree Retention & Protection Plan no. LLD1680-ARB-DWG-002 Rev 04.

Whilst we understand that the tree officer was looking for a reduction in dwelling numbers through careful assessment and re-design it is considered that the revised layouts and adjustments to plots 2, 3 and 4 achieve the required separation distances from tree root protection areas and continue to make best use of the site in keeping with surrounding development.

As you know we are keen to work with you on this and would be happy to meet with you on site to review the amendments should you consider this beneficial.

Kind regards,
Natalie
