Good afternoon Andrew,

Please see the statement below from Portsmouth Water hopefully this will satisfy the planning condition.

Have a good weekend.

Andy

Good morning Andy,

In response to your email and the attachment;

- The minimum and maximum pressures at this FH are 23 metres (2.3 Bar) and 36 metres (3.6 Bar) respectively. This will be sufficient for firefighting purposes in accordance with guidance. Please note that pressure varies throughout the day based on our operating regime and customer demands for water.
- The FH is owned by West Sussex Fire and Rescue Service, we would undertake maintenance on the FH as instructed by them

If you need anything else, please come back to me.

Also for your records Jim Hayler retired at the end of 2019, for future enquiries please use our inbox

Kind Regards

Jim Hutchison
Developer Services Manager

Good morning Jim,

I hope you are well and adapting to working from home as I am.

Can you have a look at the attached letter from Arun Council please, they are refusing to sign off a planning condition regarding the fire hydrant without additional technical information. I would be most grateful if you could send this to me at your earliest opportunity to enable me to satisfy their requirements and put this to bed.

Thanks for your help.

Andy
